

Recall (Come back when called)

Course No: TTADTR

Course Aim:

This interactive workshop will teach you all about training your dog to recall (come back when called)

Course Content:

- Identify and understand how dogs learn
- Seeing your training from your dogs point of view.
- Identify and analyse other methods of training, and why they may not be as successful as the method we will show you.
- Identify and apply a positive reward based training technique that works for your dog
- Common mistakes made in dog training and how to avoid them.
- Misconceptions about dogs
- Identify the critical fundamental components to ensure your success in training your dog.
- How to train with distractions
- Creating a training plan that works & is successful.
- Using equipment to advance your recall, i.e. long line etc. The pitfalls, common mistakes, how to train properly & gain the best from the equipment

A healthy non reactive dog will be required for this workshop

Feedback from other customers:

"I was stuck on advancing my recall training with Fred and now I understand how to go ahead and perfect this. The training was made fun, and the Jackpot technique you showed me, really does work. I would definitely recommend this course to others, well worth the money."

Follow on courses:

Understanding the pet dog – explore about behaviour, the senses of the dog, myths about training, dog psychology.

Walk to Heel: Getting your dog to walk along side you, without pulling.

Clicker Training: Understanding the clicker and how to build stronger, better behaviours.
